

October 7 | October 27 | November 12

9AM-3PM, BackBays AB (STU Lower Level)

Open to all students, faculty, and staff.

Remember to bring your insurance card. Most insurance plans are accepted and cover the cost of immunizations.

Fun bandages available!

Flu Vax Facts

- ▶ Getting an annual flu shot is the most effective way to prevent the flu.
- ▶ **You cannot get the flu from the flu shot.** The flu vaccine is made with inactive (dead) influenza virus. This gives your immune system a blueprint to fight off the virus if exposed in the future.
- ▶ It's best to **get your flu vaccine before Halloween!** It takes about 2 weeks after vaccination to develop antibodies that protect against flu.
- ▶ It is safe to get a COVID-19 vaccine and a flu vaccine at the same time.
